

1964–2024

Anniversary models

A tribute to Polar's history and future

The very first Polar caravan was constructed as a hobby project in a barn in Junselevallen, and was ready for use by Midsummer 1964. The aim was to produce a well-insulated caravan that could be used all year round, and it exceeded expectations in this regard.

From this home carpentry project, a new business idea and company was born. In fact, Polarvagnen became a successful pioneer within the caravan industry, and in the 1970s came the Polar 470 – Sweden's bestselling caravan of all time. This caravan was one of the sources of inspiration for the Black Line 730 anniversary model, a stylish and ultra-modern premium caravan with retro touches.

Our exclusive anniversary models continue Polar's tradition of innovation and technology. They deliver a luxurious, fully equipped holiday home with all manner of creature comforts. Blue Line is the essence of Polar, offering sound quality and high standards. Black Line is for those who want a distinctive premium caravan with a little extra everything. Whatever model and floor plan you choose, you will get a caravan perfect for making great memories for many years to come.

BLACKLINE

The best of the best

Welcome to your new holiday home, with everything you need and more besides. We have gone all out in more ways than one. As our most spacious caravan, it provides cosy and airy accommodation with exclusive interior fittings that add an extra sense of luxury to your caravanning experience. This truly is an anniversary model extraordinaire.

We begin on the outside with a sophisticated and modern look that really stands out from the crowd. As a nod to our bestselling caravan of all time – Polar 470 – this anniversary model has orange trim that tastefully complements the lines of the bodywork and accentuates the wheel hubs. The outer door is wider than usual and boasts a generous-sized window to allow in plenty of light.

The entire interior colour scheme is new, and the worktops have been given an elegant new edge colour. To provide even more storage space and a luxurious touch, Black Line has a glass cabinet where you can store your favourite glasses and tableware.

The floor plan provides generous social areas and is available in two configurations: one with a sideways double bed and one with two 'long beds'. We have reversed the position of the valued corner kitchen in our anniversary model, so the cook can socialise with those sitting in the lounge area and be nearer to the TV corner while preparing food.

As the first caravan manufacturer ever to do so, we offer a full-sized oven and microwave installed in its own vertical unit beside the sink. The kitchen has also been equipped with a double fridge, so you can stock up with plenty of provisions. Perfect for an extended stay in one location.

And not forgetting the small details. Cupboards and doors throughout the caravan have been given a new design and finish, while the textiles feature a unique anniversary design with a special logo to mark our 60th birthday celebrations. So simply take a seat in the cosy lounge area and invite your family and friends over. This is what true holiday luxury is all about.
