

PRICE LIST 2022

Valid from 2022-04-01

A caravan just the way you want it

With seven models, four series and plenty of optional add-ons, you have almost limitless opportunities to purchase a caravan that exactly meets your needs. Be sure to get help from Polar's dealers. They are familiar with all the options and can provide you with excellent advice before you make your purchase. Good luck!

EDITION

Fitted out and ready to go! Edition is a very economical series with fixed equipment packages and limited add-on options. The packages include well-thought-out and smart choices that make the caravan comfortable without hurting your wallet.

ORIGINAL

Here is everything you need and more besides. Compared to other caravans, Polar's basic model is really well-equipped. Many things that are included in Original are options at other manufacturers. To take it up to another level, you can also add the comfort package or the design package.

SELECTED

Selected is the series for the person who wants a little more. The equipment is carefully chosen and includes extra comfy mattress toppers, a bigger fridge, better sound system and mood lighting. For gold standard caravan living.

CUSTOMIZED

This is Polar's most luxurious series, with the best of everything. All fittings and equipment are of exclusive design and superb quality. It also has climate control, a central vacuum cleaner and lighting in all cupboards and hatches, to mention just a few things. Customized has its own unique look with black design elements.

S: Single beds

F: French bed

Q: Queenbed

B: Bathroom

X: Extra sofa

C: Children beds

W: Windowside

D: Doorside

A: Angle kitchen

Comfortable and a high quality

Polar sets a high standard for all standard equipment. The caravans are built to be used all year round in the Nordic climate and are extremely hard-wearing. Optional add-ons and the various equipment ranges enable you to customise the caravan to reflect your needs and requirements. Here are some of the great features to be found on Polar caravans.

Door with window available as an add-on. Included in the Selected and Customized packages.

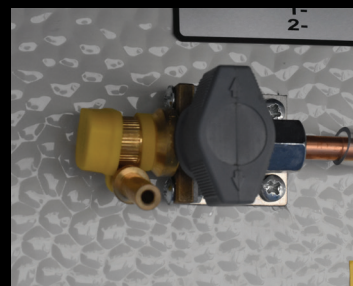

AN external loading hatch provides you with easy access to your camping equipment.

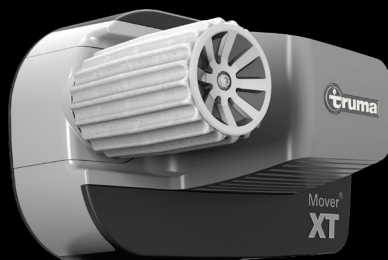

Gas changeover regulator automatically switches over to the spare bottle when the first runs out.

A stabiliser coupling reduces the risk of the caravan starting to snake and sway.

A Gas outlet in the compartment means you avoid having to pack gas bottles for the barbecue – simply connect your barbecue to the caravan's gas supply.

A mover automatically manoeuvres the caravan, without the towing car, for precision parking.

Exterior shower – ideal when you want to rinse off sandy feet or mucky paws.

Everything is about to change.
